[REDACTED],

I just noticed a few images from the (Bayonne). [REDACTED] and I have not seen this type of activity on the back of a boat since we started recording.

I noticed the Bayonne being put into gear while being tied up, shortly after a mechanic shined a light into the water and I was able to see a abnormal green color in the water.

This employee shined the light into the water appropriately 2-3 times. I notified [REDACTED] and [REDACTED] feels that it is dye as well and will document this.
